ABOUT THE PROJECT

In your answers below, please describe your planned project as clearly as you CURRENTLY can. We understand that details are subject to change!

Project Name
"Elevator Pitch" one-paragraph description of your project. Please describe all stakeholders (program directors, staff, participants, and beneficiaries) and at least one specific goal.
Where will your project take place?
When will your project take place? (please use dates; again, these may be tentative)
How much will the project cost, in total?
How much are you applying for from The Community Corps?

BIGGER QUESTIONS

Each of the questions below is **essential** to your application. The Community Corps cannot evaluate applications appropriately without the answers to these questions.

Your answers may, however, take any form you choose, as long as they clearly and concisely answer the question. Question 3, for example, may best be answered with a formal budget, and question 2 may require a formal timeline, while other questions may be best served with longer answers.

Please use your best judgement -- and your creativity and personal style! -- as you answer.

- What are the **goals** of this project?
- What **specific steps** will you take to achieve these goals?
- What **specific costs** will your project incur?
- What **community** will benefit from this project? How are you related to that community?
- In what ways does this project reflect values of **sustainability** and **education**?
- **How** will you assess the effectiveness of your program? **When** would you submit a post-project assessment?

ANYTHING ELSE

What don't we know about you that will help us understand you and your project better?
